EMİRCAN BAKAR

FRONTEND DEVELOPER

ABOUT

With my passion for software development and technology, I work on modern technologies like JavaScript and React. I bring innovative solutions to projects through my problem-solving and analytical thinking skills. I am open to learning, a team player, and result-oriented. By continuously improving myself, I aim to make steady progress in the world of software development.

EMPLOYMENT HISTORY

FRONTEND DEVELOPER

Istanbul Metropolitan Municipality
12/2024 - Ongoing

In my career at the IMM, I contribute to the development of a map-based application using frontend technologies. Throughout this process, I have the opportunity to work with various frontend frameworks and continuously improve myself in managing and developing map-related functionalities.
