

EMİRCAN BAKAR

FRONTEND DEVELOPER

+90537 264 2743 | ecbakar.dev@gmail.com | linkedin.com/in/emircanbakar

SUMMARY

Innovative Software Developer skilled in JavaScript and React. Delivers impactful solutions through strong problem-solving and analytical abilities, driving projects that engage customers and achieve business goals. Committed to continuous learning and collaboration, ensuring projects align with design standards and user preferences.

EXPERIENCE

Frontend Developer

Istanbul Metropolitan Municipality, Istanbul

2024 – Present

- In my career at the IMM, I contribute to the development of a map-based application using frontend technologies. Throughout this process, I had the opportunity to work with various frontend frameworks and continuously improved myself in managing and developing map-related functionalities.

UI Developer Intern

Jotform, Istanbul

2023 – 2023

- During my time at Jotform, I mainly contributed to frontend technologies and UI development. As part of my internship, I worked with my team to develop an AI-powered design suggestion system integrated into a form application.

IT System Solutions Support

LDAP, Istanbul

2022 – 2022

- Provided comprehensive support for system users, enhancing operational efficiency and user satisfaction.

EDUCATION

Istanbul Medipol University

Bachelor's Degree in Management Information Systems (MIS) , 2024

- Thesis: AI and Gamification

CERTIFICATIONS

New Mind AI Fullstack Bootcamp , 2025 | Certificate of completion: Claude 101, 2026
