PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building production web applications with React, Next.js, and TypeScript. Specialized in complex, map-based (GIS) interfaces and AI-driven product features, with hands-on experience in state management, REST API integration, and frontend performance optimization. Strong background in accessible, responsive UI development within established design systems.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
Frameworks & Libraries	React.js, Next.js, Redux / Redux Toolkit, React Query, Node.js, Express.js
Styling & UI	Tailwind CSS, SCSS, Design Systems, Responsive Design, Web Accessibility (WCAG)
Mapping & Data	MapLibre GL, GeoJSON, GIS Data Visualization
Practices & Tools	REST API Integration, State Management, Performance Optimization, Git, GitHub, Agile/Scrum, Code Review, Unit Testing

PROFESSIONAL EXPERIENCE

Frontend Developer

Istanbul Metropolitan Municipality

11/2024 – Present

Istanbul, Turkey

- Develop and maintain responsive, map-based web applications using React, TypeScript, and geospatial visualization libraries, serving internal municipal teams and public-facing services.
- Optimize rendering workflows and component architecture, reducing map data loading times and improving interaction responsiveness on large GeoJSON datasets.
- Integrate RESTful APIs and manage complex application state with Redux Toolkit, ensuring reliable GIS data flow into reusable UI components.
- Collaborate with backend, GIS, and design teams in an Agile workflow to deliver features from requirement analysis through production release.

UI Developer Intern

Jotform

07/2023 – 09/2023

Istanbul, Turkey

- Contributed to an AI-powered design suggestion feature integrated into the core form builder platform used by millions of users.
- Built modular, accessible, and reusable UI components with JavaScript and TypeScript in line with the internal design system.
- Participated in code reviews and bug remediation, improving UI consistency and user experience across high-traffic interfaces.

IT System Solutions Support

LDAP BT

06/2022 – 09/2022

Istanbul, Turkey

- Provided technical and directory services support to end users, resolving ticket backlogs and improving day-to-day operational efficiency.
- Troubleshoot authentication and system integration issues, reducing downtime and streamlining support workflows.

EDUCATION

B.Sc. in Management Information Systems

Istanbul Medipol University — GPA: 3.3 / 4.0 · Thesis: AI and Gamification

2020 – 2024

Istanbul, Turkey
